

Resources for Rural Veterans and Their Communities

There are 5.2 million Veterans residing in rural America who face unique barriers accessing health care. To support its vision that America's Veterans thrive in rural communities, the U.S. Department of Veterans Affairs (VA) Office of Rural Health (ORH) builds partnerships. Through federal, state and local collaboration, ORH increases rural Veterans' access to care and services to improve their health and well-being. Find resources at www.ruralhealth.va.gov.

Resources for Veterans

Center for Women Veterans

Resource center that monitors and coordinates administration of VA health care, benefits, and programs for female Veterans
www.va.gov/womenvet

www.integration.samhsa.gov/mental-health-first-aid

Veterans Choice Program Toolkit

Outreach materials to help community providers and Veterans understand how to join and use the Program

www.va.gov/opa/toolkit/index.asp

Office of Rural Health

The Office of Rural Health (ORH) implements a targeted, solution-driven approach to increase access to care for the 3 million Veterans living in rural communities who rely on the U.S. Department of Veterans Affairs (VA) for health care. As VA's lead advocate for rural Veterans, ORH works to see that America's Veterans thrive in rural communities. To accomplish this, ORH leverages its resources to increase rural Veterans' access to care and services. To learn more, visit www.ruralhealth.va.gov.
